# Curious senior IAM specialist, looking for new challenges

## Martin Meneval

Amsterdam
martin.meneval@gmail.com

## Technologies

- IAM protocols: SAML, SCIM, OIDC, OAuth
- IdPs: Keycloak, Google Workspace
- Cloud: AWS, Azure, GCP
- Scripts: Python, Bash
- Kubernetes, Docker
- Terraform

## Hard skills

- Troubleshooting
- IAM design
- Scripting
- Engineering

## Soft skills

- Curious
- Problem-solver
- Fast learner
- Supportive teammate

## Interests

- Computer tinkerer
- Music geek
- Tech enthusiast
- Home cook

## Languages

- French - native
- English - fluent

## Experience and education

### IAM Specialist, *Picnic*, since Nov '22

- Led the global identity unification project, connecting dozens of SaaS and homemade apps for a seamless enterprise-grade IAM solution.
- Automated user provisioning, single sign-on setup, and identity management across Keycloak, AWS, and Google Workspace, resulting in streamlined processes and reduced manual efforts.
- Resolved Keycloak regressions, co-implemented PIN authentication for warehouse colleagues and provided ad-hoc support for cross-team initiatives, ensuring impeccable documentation and stable business continuity during critical incidents.

### Junior DevOps engineer, *Picnic*, '22

- Supported day-to-day cloud infrastructure operations for a team of 300+ developers.
- Optimized support processes for all teams, enabling better triage and lower time-to-resolution.

### Sysadmin, Picnic, '20 and '21

- Enabled seamless collaboration for colleagues across 50+ SaaS apps.
- Pioneered automation initiatives, leading to average 50% time reduction in user lifecycle operations.
- Championed security alongside the nascent dedicated team, enabling numerous initiatives.

### Master's degree, infosec engineering
### *INSA CVL, France*, '15 to '20

- Focus on IT Infrastructure, Administration and Auditing.
- Emphasis on: economy, law, strategy & business management.
