Hard skills

Windows   ★★★
Troubleshooting   ★★★
Python, Powershell ★★★
UNIX   ★★
Jira, GSuite   ★★
Networking & Security ★★
JS, PHP, and more! ★★½

Soft skills

Curious
Fast learner
Supportive teammate
Problem-solving focused

Languages

French - native
English - fluent
Spanish - beginner

More about me

Computer tinkerer
Music geek
Tech enthusiast
Decent at cooking

Work Experience

❯ **System Administrator**, *Picnic, Netherlands*, Mars 2020 to present
- "Sherlock Holmes" of IT: finding the what and why of every problem
- JIRA, Google Workspace, Azure/Office admin
- Python aficionado
- Security by default, always

❯ **Full-stack developer intern**, *INSA CVL, France*, April to July 2019
- Development and engineering of a RESTful web application
- Focus on data security in an app built for medical professionals
- Creation of a flexible and reliable way to provide access control
- End-user experience tailoring through an AGILE-like structure
- Preparing and handling successful deployments
- Built with modularity in mind, to ease maintenance

Education

❯ **Master's degree in engineering**, *INSA CVL, France*, 2015 to 2020
- Specialized in cybersecurity
- Focus on IT Infrastructure, Administration and Auditing
- Emphasis on: economy, law, strategy & business management

Notable projects

❯ **Disabilities-themed escape game**
- Revolving around invisible disabilities at work
- A story about hacking office computers, and glimpses of people's lives
- Market study, legal research and prep for building a start-up

❯ **Automated management of Saas app accounts**
- Market reasearch and comaprison
- Negociation and business-case building
- Implementation, stakeholder management and maintenance
